Direct Pay

The Direct Pay method was used when a purchase order or other acquisition method should have been utilized.

Direct payments may be made for those types of commitments/obligations for which little or no value can be added by processing the transaction through the standard procurement procedures. Campuses are responsible for establishing local policies which identify types and dollar thresholds for transactions authorized for direct payments and associated procedures for exception processing.

Direct Payment Matrix

Payment Method Matrix		
Use Procard* (Acceptable Procard Purchases)	Use a Purchase Order (PO)** (Purchase Requisition required to issue a PO)	Use Direct Payment (Check Request Form)
Advertisements	Blanket Orders	Attorney Fees
Books and Publications	Capital Assets	Event Fees (Awards and Promotional)
Catering	Construction Projects	Honorariums (Honorarium Agreement Required)
Conference and Seminar Registration Fees	Contractual Monthly Service Repairs	Postmaster fees for mail services
Expendable items such as paper and toners	Electronic/Computer/Sensitive equipment	Speaker Fees
Membership/Subscription Fees (no automatic renewals)	Long-term consulting or independent contracting services	Scholarships/Stipends (from sponsored project funds)
Printing	Monthly Maintenance Agreements (i.e., copiers and printers)	Utilities
Office supplies	Projects using multiple vendors	Taxes
Rentals (except for facility use)	Sponsored Project funded service agreements	
Replacement Parts	Consultant services including travel costs	

The following expenses are prohibited for Direct Pay:

1. **Payments for Agreements/Contracts**
2. **Travel (use a Expense Reimbursement)**
3. **Payments against Purchase Orders**
4. **Services (a PO/Agreement is needed)**
5. **Space Usage off-campus (a Facilities Use Agreement is needed)**

Sole Source

Sole brand and sole source are two procurement methods that limit competition. Any decision to limit competition may also have the effect of limiting the CSU's ability to minimize costs, negotiate favorable terms and conditions, and allow for alternate courses of action during disputes. These methods should be used only when it has been determined that other competitive procurement methods will not fulfill the requirements of the CSU.

Split Purchases

There were instances where multiple purchase orders were used for the same supplier in the same date range to circumvent the bidding threshold.

Split Purchases

Splitting of purchases or contracts in order to avoid or circumvent legal or policy requirements, including but not limited to competitive solicitation requirements is prohibited.

Purchases over \$50,000

Purchases over \$50,000 require three quotes. If you are unable to secure three quotes than a business exception must be documented.

The Procurement Team can assist with securing quotes for your desired goods and services.
