Welcome!

*DroneCamp* is a short course on using drones for mapping and data collection. Now in its 5th year, the program is designed to cover a broad suite of knowledge and skills needed to use drones for mapping. No experience is necessary.

The program is a collaborative effort by several campuses and research programs within the University of California and California State University systems. Normally an in-person event at CSU Monterey Bay, DroneCamp 2021 is being held online due to the COVID-19 pandemic.

We have a jam packed program this year!

Topics include equipment, mapping, regulations, missing planning, hardware, data collection, data analysis and more.

**View the agenda.**

**Registration is now open.**

The fee covers all five days of virtual content. This year enrollment will be capped at 500 participants.

**General admission:** $150  
**Academic rate:** $100  
**Students:** $50

Our Scholarship Program offers financial support to students, non-profits, and individuals who would like to participate in DroneCamp. Limited funds are available.

Deadline to apply is June 28 for UC ANR affiliates and July 1 for all others. [Learn more.]
