- Additional Health Promotion and Education activities, including training opportunities, and expanding the Peer Education and student internship programs.

PROS & CONS

submitted by Associated Students

Pros:
- Opportunity to expand health education programming to support student wellness.
- Ability to expand health services during COVID.

Cons:
- No expansion of Campus Health Center hours of operation, which remain Monday-Friday, 8am to 5pm, with access to Doctors on Duty services on weeknights and weekends at their off campus locations in Monterey and Santa Cruz, regardless of insurance status.

SERVICE UTILIZATION

Academic Years 2016-2019:
- Campus Health Center served an average of 4,300 student visits.
- Health Promotion and Education provided prevention education to an average of 13,433 each academic year.

Since COVID:
- Increased need for prevention and intervention services.
