Navigation tips
A navigation icon ★ appears in the telephone display to indicate that you can scroll to more options or information. Use the up and down navigation arrows to scroll up or down through lists. When only one up or down navigation arrow shows, it indicates you are at the top or bottom of the list and can only move in the direction indicated by that arrow. Use the right and left navigation arrows to go to other screens when the paging icon (left- and right-facing arrows) displays on the title line or to move the cursor right or left when entering text.

When you scroll to a line on the display, that line is selected.
You can also select a line or feature without scrolling by pressing the corresponding line button.

Avaya Menu
You can use the Avaya Menu to adjust and customize options and settings for your telephone, access additional Web-based applications, get information about your phone and network settings, and log out. When you press the Avaya Menu button, you see one of the following menus, depending on how your administrator has set up your system and on the applications available to you:

Options & Settings or Phone Settings, if your menu is customized, lets you change your call settings, personalize button labels, adjust brightness and contrast, select your ringing pattern, and more.

The Browser menu contains additional web-based applications. (If no web applications are available for your phone, the Browser menu is not shown.)

About Avaya one-X provides the release number of your telephone software.

Guest Login lets you log in to a phone to which you are not normally assigned, to access your own contacts and features.

Log Out lets you sign off the phone, to protect your settings or to allow another user to log in. Log out does not display unless your phone (and any associated button module) is in an idle state.

My Pictures lets you use pictures from a USB device as your telephone screensaver, but is only available on those deskphones with a USB interface.

Answering and making a call
Answering a call

Answer an incoming call in one of the following ways:

- If you are not on another call, lift the handset or press the line button next to the incoming call, press Speaker, OK, or Answer to answer the call using the speakerphone, or press Headset to answer using the headset.
- If you are on another call and the telephone does not automatically display the incoming call, from the Phone screen scroll to the line with the incoming call and press Answer or OK. If you are on another call and the telephone does automatically display the incoming call, you can press Ans Hold to automatically put the first call on Hold when you answer the new call. Alternately, you can press Ans Drop to automatically drop the first call when you answer the new call.
- To quickly move to the top of your call appearance list to answer an incoming call on your primary line, from the Phone screen press the Phone button. You can then press the line for the incoming call or scroll to it.
- To automatically display the Phone screen whenever you receive an incoming call, set the Go to Phone Screen on Ringing option to Yes.

About Features
In addition to the Features menu, your administrator might also provide selected features on softkeys on the call appearance (Phone) screen. For more information about what features and options are available for your extension, contact your system administrator.

Accessing the Features menu
From the Phone screen, use the navigation button and scroll to the right side to access the Features menu.
For models with LEDs, the LED next to the feature name indicates if the feature is currently on or off. If the light is on, the feature is on.
To return to the main Phone screen, press Phone or scroll to the left.

Contacts
You can save up to 250 names and up to 3 telephone numbers per name. You can call a contact by speaking the contact name. You can also import or export a Contact list using a USB device.

Note:
If you press the Contacts button and nothing happens, your system administrator has disabled the button and its functionality. In this case, you cannot add, edit or delete any existing contacts. However you can view the existing contact entries.

Send All Calls
You can also turn Send All Calls on or off by using the telephone Features list.
1. Press Forward to access the main Forwarding menu.
2. Select Send All Calls.
3. Press Select or OK to turn Send All Calls on or off.

Call Log
Calling a person from the call log
1. Press the Call Log button.
2. Scroll to the left or right to view a separate list of all calls, missed (unanswered) calls, answered calls, or outgoing calls.
3. Scroll up or down to select the person or number you want to call.
4. Select the person or number you want to call.
5. Press the Call softkey or the OK button.
Depending on how your phone is administered, returning a Missed Call may result in that call history entry being deleted when the call goes through.

Adding an entry from the call log to your contacts list
1. Press Call Log.
2. Select the number you want to add to your Contacts list.
3. Press +Contact.
4. Edit the name and telephone number, if necessary.
5. Press Save.
